Multi Storey Room Levels

To determine on/above ground level code:	To determine sub-ground level code:
M = Main level (main floor, no portion below ground)	LLP = Lower Level 1 Portion below grade
2 = Second (next above ground level)	B = Basement (fully below grade /lower level 1)
3 = Third (next above ground level)	LL = Second basement/Lower Level 2
O = Other	

* Remember, it is the grade that determines the level, not whether there are windows or walk outs.

Split Room Levels

VISITABLE

To be **VisitAble**, a home must have all three of these features:

- At least one no-step entrance, exterior threshold doesn't exceed 13 mm (1/2 in.) in height
- Main living level has minimum doorway width of 36" (915mm) and minimum hallway width of 43 1/4" (1100mm)
- Main living level has an accessible half bathroom with min. 1500mm turning radius

Adaptable Housing is VisitAble and has additional features so the home can be adapted economically, at a later date, to accommodate mobility needs and changes. This may also be called FlexHousing™.

Accessible Housing is VisitAble and includes a range of additional features to make the home, inside and out, accessible and functional for most mobility or sensory challenges.
